

Market Wether Goats Class September 2011

Placing: 1 – 4 – 2 – 3

Cuts: 3-2-4

I placed the class of Market Wethers 1-4-2-3. I stated with 1 as he is the most balanced wether of the class. His loin is fuller from withers to hooks, and he has the longest hip from hooks to pins. I realize 4 is not as full over the top but has a fuller hind saddle with a shorter hock than our 3rd place wether. I placed 2 third as he simply has more bone and a deeper twist over our 4th place wether. Concluding off our class, I placed 3 last as he was the shortest in the hip and doesn't have the bone and muscle development as the rest of the wethers in the class.

Overall, a good class of wethers.

Thank You,

Jimmy Dowell
