

# GOAT MANAGEMENT

**What is the gestation length of goats?**

- A** 9 months
- B** 6 months
- C** 205 days
- D** 150 days

**Kid goats will gain about \_\_\_\_\_  
pounds a day.**

**A**

**2**

**B**

**.5**

**C**

**1**

**D**

**3**

# Two of the biggest problems in managing goats in Kentucky are

**A**

**Foot rot and Parasites**

**B**

**Parasites and available feed**

**C**

**Humidity and Heat**

**D**

**Severe cold and product demand**

# What is the estrus cycle length of goats?

- A 18-22 days
- B 21-23 days
- C 28-30 days
- D 45-50 days

**The process of removing the horns  
from kids is called \_\_\_\_ ?**

**A**

**Castrating**

**B**

**Docking**

**C**

**Disbudding**

**D**

**Weaning**

**Goats are weaned at about \_\_\_\_\_  
days of age.**

**A**

**45**

**B**

**45-60**

**C**

**60-90**

**D**

**150**

**Goats will only compete with cattle  
on \_\_\_ % of feedstuff if enough  
browse is available.**

**A**

**35-40**

**B**

**9-10**

**C**

**20-25**

**D**

**50-55**

**Most goats are seasonal breeders.**

**A**

**True**

**B**

**False**

**How old should a kid be when  
exposed to the Billie?**

**A**

**7 months**

**B**

**10 months**

**C**

**1 year**

**D**

**2 years**

**Goats must be vaccinated prior to  
kidding with Clostridium Chauvoei**

**to control \_\_\_\_\_.**

**A**

**Sore-mouth**

**B**

**Over-eating**

**C**

**Leptospirosis**

**D**

**Mastitis**

**Cydectin given orally as a wormer should be administered at a rate of \_\_\_\_\_.**

- A 10 cc per 100 pounds of body weight**
- B 1 cc per 100 pounds of body weight**
- C 4 cc per 100 pounds of body weight**
- D 20 cc per goat**

**A mixture of 1/2 DMSO and 1/2  
gallimycin is used to treat \_\_\_\_\_.**

**A**

**Pinkeye**

**B**

**Foot rot**

**C**

**Parasites**

**D**

**Cuts**

**The goat estrus period will last**

\_\_\_\_\_.

**A**

**6 hours**

**B**

**12-36 hours**

**C**

**2-3 days**

**D**

**1 week**

**What is the breeding ratio of bucks to does?**

**A**

**1:10**

**B**

**1:15**

**C**

**1:25**

**D**

**1:50**

**NEXT**

**When are goats typically in seasonal  
anestrous? (not cycling)**

- A** August - January
- B** February - July
- C** Fall
- D** Fall and Winter

**A goat with blisters on the lips and  
around the mouth has \_\_\_\_\_.**

- A** Lock jaw
- B** Severe parasite load
- C** Sore-mouth
- D** Scrabies

**Goats that are run with sheep in Kentucky do not require the scrababies tag.**

**A** True

**B** False

**What mineral do goats require that  
is toxic to sheep?**

**A**

**Iron**

**B**

**Selenium**

**C**

**Copper**

**D**

**Magnesium**

**What element is in far to short supply in Kentucky soils?**

**A**

**Selenium**

**B**

**Phosphorus**

**C**

**Sodium**

**D**

**Zinc**

**Goats love to eat cedar trees.**

**A**

**True**

**B**

**False**

**Goats should be disbudded at what age?**

**A**

**1 year**

**B**

**6-7 months**

**C**

**2-3 months**

**D**

**2-3 weeks**

# Enterotoxemia is commonly known as

\_\_\_\_\_.

**A**

**Overeating disease**

**B**

**Sore Mouth**

**C**

**Coccidiosis**

**D**

**Urinary Calculi**

**What is used to establish a goats  
age without records.**

**A**

**Size**

**B**

**Horns**

**C**

**Teeth**

**D**

**Foot Size**

**Goats will start to lose their baby teeth at the age of \_\_\_\_.**

- A** 2-4 months
- B** 6-8 months
- C** 10-12 months
- D** 22-24 months

**Show goats should be fed a \_\_\_\_%  
protein ration.**

**A**

**6-8%**

**B**

**8-10%**

**C**

**10-12%**

**D**

**16-18%**

# Why do show goats need hay with their grain?

- A**
- B**
- C**
- D**

**Just to keep them satisfied**

**Keep their rumen working**

**Help their appetite**

**Stabilize the immune system**

is the most popular method of castration in young goats.

**A**

**Surgical**

**B**

**Banding**

**C**

**Clamping**

**D**

**Flastulator**

**A male goat that has been castrated  
is called a \_\_\_\_.**

**A**

**Wether**

**B**

**Steer**

**C**

**Barrow**

**D**

**Buck**

A mature female goat is called a \_\_\_\_\_.

**A**

**Kid**

**B**

**Billie**

**C**

**SOW**

**D**

**DOE**

is the act of a goat giving  
birth.

A

Farrowing

B

Kidding

C

Calving

D

Goating

is the most popular meat in the world.

**A**

**Chevon**

**B**

**Mutton**

**C**

**Pork**

**D**

**Beef**

A mature male goat is called a \_\_\_\_\_.

**A**

**Bull**

**B**

**Wether**

**C**

**Old Goat**

**D**

**Buck**

**Ammonia Chloride is added to goats  
feed to prevent \_\_\_\_\_.**

**A**

**Urinary Calculi**

**B**

**Overeating disease**

**C**

**Internal parasites**

**D**

**Ringworm**

**The separation of a kid from her mother is called \_\_\_\_\_.**

**A**

**Kidnapping**

**B**

**Docking**

**C**

**Weaning**

**D**

**Mistreating**

The mother's first milk is called \_\_\_\_\_.

**A**

**Chocolate**

**B**

**2%**

**C**

**Whole**

**D**

**Colostrum**

**A group of goats are referred to as**

**a \_\_\_\_\_.**

**A**

**Flock**

**B**

**Herd**

**C**

**Bunch**

**D**

**Band**

**Kentucky ideal weight to sell goats  
is \_\_\_\_\_ pounds.**

- A 100-120**
- B 80-100**
- C 65-70**
- D 30-40**

**What is the normal age for disbudding?**

**A**

**2-4 weeks of age**

**B**

**6-8 weeks of age**

**C**

**10-12 weeks of age**

**D**

**14-16 weeks of age**

**All of the following are examples of energy feeds except \_\_\_\_\_.**

**A**

**Soybean meal**

**B**

**Milo**

**C**

**Oats**

**D**

**Barley**

**NEXT**

**What does the term washed-out mean?**

**A**

**The exhibitor has really got the animal clean at the wash rack**

**B**

**The kid has loss shape and squareness over the loin**

**C**

**The showring personnel have gotten the sawdust in the ring wetted down and ready for the show**

**D**

**The kid is bloomy and healthy looking over the loin**

**NEXT**

**What equipment is used to disbud kids?**

**A**

**An electric dehorner**

**B**

**A disbudding iron**

**C**

**A hammer**

**D**

**A disbudding saw**

**NEXT**

**What is the first milk produced by a doe called?**

**A**

**Sweet Milk**

**B**

**Clostridium**

**C**

**Colostrum**

**D**

**Lactose Intolerant**

**NEXT**

## What does the term parturition mean?

- A** The act of carrying a fetus in the uterine canal
- B** The act of a doe kidding
- C** The act of releasing the bucks into the field during breeding season
- D** The period of time that the does are cycling

**What does the term lactation mean?**

**A**

**The period of time the doe is milking**

**B**

**The act of carrying a fetus in the uterine canal**

**C**

**The period of time when does are cycling**

**D**

**A severe infection of the mammary system**

**NEXT**

## What is a Kidding jug?

- A** A jug of water and electrolytes to be given to kids shortly after birth
- B** A container of milk-replacer for orphan kids
- C** A small birthing pen for does and kids
- D** A place to isolate and quarantine sick and infected kids

## What is club kid fungus?

- A** A bacterial infection that leaves round sores on the skin of kids
- B** A fungal infection that leaves round sores on the skin of kids
- C** A fungal infection that makes the kid's foot rot off
- D** A viral infection that leaves round sores on the skin of kids

**What is the common name for  
enterotoxemia?**

**A**

**Pinkeye**

**B**

**Sore Mouth**

**C**

**Mastitis**

**D**

**Overeating Disease**

**NEXT**

## What is conjunctivitis?

**A**

**An infection, where mud and manure get compacted between the toes**

**B**

**An infection of the nasal cavity due to excessive exposure to dust.**

**C**

**An bacterial infection in the udder of a doe**

**D**

**An infection of the eye**

**What is another name for entropion?**

**A**

**Pinkeye**

**B**

**Inverted Eyelid**

**C**

**Mastitis**

**D**

**Prolapse**

**NEXT**

# What is white muscle disease?

- A** A disease related to Selenium and Vitamin E deficiencies
- B** A disease related to Calcium and Potassium deficiencies
- C** A disease related to Vitamin A,D,K deficiencies
- D** A disease related to Magnesium and Copper deficiencies

**What is Spectinomycin used for on goat farms?**

**A**

**To treat animals with infected eyes**

**B**

**To treat animals that have pneumonia like symptoms**

**C**

**To treat animals for scours**

**D**

**To treat animals that have club kid fungus**

**NEXT**

**What is meant by dipping a goat?**

**A**

**Giving a goat a bath for the first time**

**B**

**Physically immersing a goat to treat for external parasites**

**C**

**Shearing or clipping the kid so it appears that there is a dip behind the front shoulders**

**D**

**Dipping goat meat in marinades before being cooked**

**NEXT**

**What does TDN stand for?**

**A**

**Toggenburg Dairy Goat Network**

**B**

**Total Denial of Negligence**

**C**

**Total Digestible Nutrients**

**D**

**Thermal Determination of Newborns**

**NEXT**

## What is floppy kid syndrome?

**A**

A disorder in kids due to over-consumption of milk and an inability to digest

**B**

A kid that has had his ribs and legs broken at birth due to dystocia

**C**

A disorder in kids due to ingesting milk from a ewe with mastitis

**D**

A kid that takes much longer than normal to learn how to walk

## What is urinary calculi?

- A** A worm that causes irritation in the urinary tract
- B** A disease caused by bacteria that will causes the break down of the urinary tract
- \* C** A disease in the gizzard that will shut down the digestive tract
- \* D** Kidney stones

**What is ammonia chloride used for?**

- A** A topical solution used to prevent pinkeye and conjunctivitis in goats
- B** A pour on solution to prevent worms in goats
- C** A substance used to lower urine pH and reduce stones in urinary tract
- D** A feed additive to improve muscle gain in club kids

**NEXT**

## **Why are fecal exams taken from goats?**

**A**

**For the producer to examine what the goat has been eating**

**B**

**For a veterinarian to check for worm levels in the feces**

**C**

**For a veterinarian to determine if the animal has Overeating disease**

**D**

**For a veterinarian to test for mastitis in does**

**NEXT**

# What is Clostridium Chauveoiei?

**A**

**A vaccination to prevent Contagious Ecthyma**

**B**

**An antibody produced by the kid to prevent urinary calculi**

**C**

**A vaccination to prevent vibrio/lepto**

**D**

**A vaccination to prevent overeating**

**What do the letters CL stand for?**

**A**

**Caseous Lymphadenitis**

**B**

**Caprine Leukemia**

**C**

**Clostridial Level**

**D**

**Club Lamb**

**NEXT**

# What is CAEP?

**A**

**Caprine Agility Examination**

**B**

**Caprine Alternative Embryos**

**C**

**Cost of Agriculture Exports**

**D**

**Caprine Arthritis Encephalitis**

**At what age do we normally castrate kids?**

**A**

**2-6 weeks of age**

**B**

**7-10 weeks of age**

**C**

**3 months of age**

**D**

**6 months of age**

**NEXT**

**What is the normal weaning age for kids?**

**A**

**10-30 days**

**B**

**30-50 days**

**C**

**60-90 days**

**D**

**120-150 days**

**How long is estrus?**

**A**

**6-10 hours**

**B**

**12-36 hours**

**C**

**36-72 hours**

**D**

**75-100 hours**

**NEXT**

**How long is the estrus cycle?**

**A**

**2-3 days**

**B**

**7-10 days**

**C**

**12-15 days**

**D**

**18-22 days**

**How long is gestation in goats?**

**A**

**175 days**

**B**

**110 days**

**C**

**130 days**

**D**

**150 days**

**NEXT**

**What is a goat's normal body temperature?**

**A**

**97-99 degrees F**

**B**

**100-101 degrees F**

**C**

**103-105 degrees F**

**D**

**106-107 degrees F**

**NEXT**

**What is a goat's normal respiration rate?**

- A** 10 times per minute
- B** 15 times per minute
- C** 20 times per minute
- D** 30 times per minute

**NEXT**

**What is a goat's normal heart rate?**

- A** 10-40 beats per minute
- B** 50-65 beats per minute
- C** 70-130 beats per minute
- D** 140-150 beats per minute

# At what age do you first vaccinate for Overeating disease?

- A** 0-90 days old
- B** 90-180 days old
- C** 1-2 years old
- D** 3-5 years old

**What does the term necropsy mean?**

**A**

**Autopsy**

**B**

**A goat that faints or falls asleep often**

**C**

**Foot rot**

**D**

**A disease infested goat**

**NEXT**

**What is the normal percent protein of a creep feed?**

- A** 10-12%
- B** 12-14%
- C** 18-20%
- D** 42-44%

**NEXT**

**All of the following are roughages except \_\_\_\_\_.**

**A**

**Alfalfa hay**

**B**

**Orchard Grass hay**

**C**

**Corn**

**D**

**Timothy hay**

**NEXT**

**All of the following are protein feeds except \_\_\_\_\_.**

**A**

**Fish meal**

**B**

**Barley**

**C**

**Cotton seed meal**

**D**

**Soybean meal**

**NEXT**

**What is the mineral required in goat rations  
that is toxic to sheep?**

**A**

**Magnesium**

**B**

**Selenium**

**C**

**Calcium**

**D**

**Copper**

**NEXT**

**What is the average birth weight of a kid?**

- A** 0-5 lbs.
- B** 5-15 lbs.
- C** 16-25 lbs.
- D** 26-30 lbs.

**NEXT**

## What does the term grafting mean?

- A** Transferring a kid from one doe to another doe.
- B** Taking hair from one goat and putting it over a bare spot on another goat's hide.
- C** Weaning a kid from a doe at 90 days of age.
- \* D** Transferring a kid from an all milk diet to an all grain diet.

**What does the term dystocia mean?**

- A** An easy birth with no problems.
- B** A birth where the kid will always die.
- C** A difficult birth.
- D** A term for a kid that has ingested toxic milk.

**How long will the typical doe be in lactation?**

**A**

**30 days**

**B**

**60-90 days**

**C**

**120-180 days**

**D**

**300-360 days**

**NEXT**

**Relative to nutrition, what does the term flushing mean?**

**A**

**Feeding extra energy prior to breeding to increase the doe's ovulation rate.**

**B**

**Removing eggs from a doe for in vitro fertilization.**

**C**

**Feeding young kids extra roughages to increase fiber in their diet.**

**D**

**Feeding kids strictly water and no grain to flush out the digestive tract.**

**NEXT**

## What does a breech birth mean?

**A**

**Kid comes out completely backwards, with just the tail coming out first**

**B**

**Kid comes out forward with one leg back**

**C**

**Kid comes out forward with both legs back**

**D**

**Kid comes out correct**

## What is meant by the term lactation?

- A** The period of time when the doe is carrying the kid inside her body.
- B** The period of time when the kid is being removed from it's mother.
- C** The period of time that the kid begins eating a grain diet.
- D** The period of time that the doe is producing milk for her kid.

**What does the term Orf mean?**

**A**

**Human form of Overeating Disease**

**B**

**Human form of Sore-mouth**

**C**

**Human form of Club Kid Fungus**

**D**

**Uneaten feed, leftover by goats in the feed trough**

**NEXT**

**A bacterial infection that affects the area between the toes is called \_\_\_\_\_.**

**A**

**Bumble Foot**

**B**

**Foot Rot**

**C**

**Black-leg**

**D**

**Foot Scald**

## What is a creep feed?

**A**

**Feed fed to creepy or spooky looking kids.**

**B**

**High protein feed that is fed to kids still nursing ewes.**

**C**

**Feed that is fed to bucks to increase fertility.**

**D**

**High energy feed fed to gestating does.**

**What is an anthelmintic?**

**A**

**A Clostridial vaccination**

**B**

**A dewormer**

**C**

**A fungal treatment**

**D**

**A Reproductive disease vaccination**

**A more common term for “blue-bag” is**

\_\_\_\_\_.

**A**

**Mastitis**

**B**

**Conjunctivitis**

**C**

**Contagious Ecthyma**

**D**

**Leptospirosis**

**NEXT**

**A bacterial infection that breaks down the hoof in sheep is called \_\_\_\_\_.**

**A**

**Foot scald**

**B**

**Bumble foot**

**C**

**Black-leg**

**D**

**Foot rot**

**A baby goat is called a \_\_\_\_\_.**

**A**

**Cutie**

**B**

**Kid**

**C**

**Fawn**

**D**

**Foal**
