Judge: Jodie Boen

Placing: 4-2-1-3

#4 is goat with a big hip in him. Not as clean made as one and two.  
#2 is pretty appearing goat from the side. Lacks muscle in that hind leg compared to the goats in front of him.

#1 does carry some muscle, too much bracing takes away from his profile is long, but too steep hipped.

#3 is too soft to move up higher in this competitive class.
