Questions

- A. Which steer had the appearance of being over finished and thus would hang the carcass with the least desirable yield grade?
- B. Which steer had apparent Limousin breed influence in his genetic background?
- C. Which steer was the straightest in the angle to his shoulder?
- D. Which steer had the most evidence of muscling and thus would hang the carcass with the most rib eye?
- E. Which steer is the most level in his top?
- F. Between 1&2 which is a heavier boned steer?
- G. Between 1&2 which steer is a deeper midled, longer steer?
- H. Between 1&4 which steer is more nearly level over his top and rump and is the tighter sheathed steer?
- I. Which steer had the best Weight per Day of Age (WDA)?
- J. Which was the shortest necked steer?
- K. Which steer would be the most probable to grade choice based on finish?
- L. Between 1 & 2 which steer gives the indication that he would hand a carcass with more loin eye area?
- M. Between 2 & 3 which steer had the advantage in finish & WDA ?
- N. Between 2 & 3 which steer was more correct in his top, rump and leg design?

ANSWERS: A. 3 B. 4 C. 3 D. 4 E. 3 F. 1 G. 1 H. 1 I. 3 J. 3 K. 3 L. 1
M. 2 N. 2

The following slides show the carcasses, below is the placing for the class. It should be noted the placing was determined just like yours – without looking at the carcasses:

4-1-3-2 with cuts of 5-2-2

Questions

- A. Which steer is pounds light steer?
- B. The most up headed, tightest middled steer that is longer and more attractive in its front end?
- C. The shortest rumped calf between 1, 2 & 3?
- D. Which calf had the most evidence of finish, and thus could hang the carcass with the highest quality grade?
- E. The black baldy steer?
- F. The highest WDA steer in the class that would hang the most product?
- G. The calf with the most set to its hock?
- H. The best balanced steer with the straightest top, rump and leg design?
- I. The horned steer?
- J. The lightest muscled steer?
- K. The branded steers?
- L. The trimmest necked and trimmest middled steer between 2 & 4?
- M. Between 2 & 4 which steer has a deeper loin with more pop and roundness to its rump and neck indicating it would dominate with a larger rib eye area when killed, carcassed and hung on the rail?
- N. The producer oriented steer with more middle, depth and length of rib that would apparently be an easier feeding steer?
- O. The steer with the high tail head?
- P. Between 1, 2 & 3 which steer appears to have the smallest frame?
- Q. Between 2&4 which is a longer loined, longer rumped steer?

ANSWERS: A. 1 B. 2 C. 1 D. 4 E. 4 F. 4 G. 2 H. 1 I. 3 J. 3 K. 2,4 L. 2
M. 2 N. 4 O. 2 P. 1 Q. 2
